Shivraj Jadhav

Maharashtra, India | +91 9021252094 | shivraj25@navgurukul.org | github | linkedin

Professional Summary

Web Developer building full-stack applications with JavaScript, Python, Node.js, and REST APIs. Developed 10+ projects including a multilingual government scheme platform, multi-source news dashboard, and browser-based WebOS. Currently practicing Data Structures & Algorithms and mentoring 20+ learners at NavGurukul.

Skills

Languages: JavaScript (ES6+), Python, HTML5, CSS3

MERN Stack: MongoDB, Express.js, React, Node.js

Technologies: REST APIs, React Router, Tailwind CSS, Responsive Web Design

Tools: Git, GitHub, Visual Studio Code, Chrome DevTools

Technical Projects

HaqSetu — Government Scheme Access Platform | React, JavaScript, Vite, Tailwind CSS **Live Demo | 2026**

- Implemented a rule-based scheme matching engine across 7 eligibility factors, including age, gender, occupation, location, income, documents, and scheme-specific requirements.
- Added multilingual guidance in 3 languages with voice support, document checklists, React Router, localStorage persistence, and optional Gemini-powered explanations.

News Pulse — Full-Stack News Aggregator **Live Demo | 2026**

- Developed a news aggregation platform collecting articles from 9 international sources using RSS feeds, Feedparser, and BeautifulSoup.
- Created 6 REST API endpoints supporting pagination, search, source filtering, article retrieval, financial data, and manual scraper triggers.
- Enforced database-level URL uniqueness and synchronized categorized articles with Google Sheets while using structured logging, custom exceptions, and type annotations.
- Added 4 pytest modules covering database models, REST endpoints, scrapers, and Google Sheets synchronization.

Arachne OS — Browser-Based Web Operating System | HTML5, CSS3, JavaScript **Live Demo | 2026**

- Engineered a browser-based WebOS with 5 core applications, draggable windows, z-index management, dock controls, lock screen, fullscreen support, and simulated power controls.
- Created multi-tab browser, virtual file system, VS Code-style editor, calculator, and system settings using Vanilla JavaScript with dynamic UI state management.
- Integrated a 1-second real-time clock, localStorage persistence, Geolocation API, Open-Meteo Weather API, keyboard shortcuts, and responsive window interactions.

Experience

NavGurukul | Education Technology **2025 – Present**
English Facilitator & Peer Mentor *Dharamshala, Himachal Pradesh*

- Facilitated 50+ structured learning sessions for 20+ learners, combining iterative practice and feedback to support technical and English skill development.
- Mentored learners through 30+ one-on-one sessions and 15+ peer workshops, supporting troubleshooting, collaborative tasks, and independent problem-solving.

Education

Higher Secondary Certificate (Class XII) | Maharashtra State Board **2026**
Relevant Coursework: Computer Science, Mathematics *Maharashtra, India*

Full Stack Web Development & DSA (Self-Directed) **2025 – Present**
JavaScript, Python, Node.js, REST APIs, Data Structures & Algorithms

Certifications & Achievements

Responsive Web Design – freeCodeCamp | **JavaScript Algorithms and Data Structures** – freeCodeCamp

Completed 10+ projects on GitHub | Solved 30+ DSA challenges

Languages

Marathi (Native) | **Hindi (Fluent)** | **English (Professional Working Proficiency)**
