Shivraj Jadhav

Maharashtra, India | +91 9021252094 | shivraj25@navgurukul.org | GitHub | LinkedIn

Professional Summary

Full-stack web developer focused on JavaScript, React, Node.js, Express.js, and REST API development. Built projects involving JWT authentication, MongoDB, AI integration, data aggregation, and interactive browser applications. Experienced in mentoring learners and collaborating on technical problem-solving.

Technical Skills

Languages: JavaScript (ES6+), Python, HTML5, CSS3
Frontend: React, React Router, Tailwind CSS, Responsive Web Design
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Databases: MongoDB
Tools and Testing: Git, GitHub, VS Code, Chrome DevTools, pytest

Technical Projects

CollabSphere – Developer Collaboration Platform Live Demo | 2026

React, Node.js, Express.js, MongoDB, Gemini AI

- Developed a full-stack collaboration platform featuring JWT authentication, role-based access control, project management, team management, and REST APIs.
- Implemented Markdown documentation, code uploads and previews, public read-only project sharing, and activity tracking with contribution analytics.
- Integrated Google Gemini AI for code explanations, documentation generation, README creation, and note improvement, with server-side API key protection and rate limiting.

News Pulse – News Aggregation Platform Live Demo | 2026

Python, REST APIs, Feedparser, BeautifulSoup, pytest

- Built a news aggregation platform that collects articles from nine international sources using RSS feeds and web scraping.
- Developed six REST API endpoints for pagination, search, source filtering, article retrieval, financial data, and manual scraper triggers.
- Implemented database-level URL uniqueness, Google Sheets synchronization, structured logging, custom exceptions, and type annotations.
- Created four pytest modules covering database models, API endpoints, scrapers, and Google Sheets synchronization.

Arachne OS – Browser-Based Web Operating System Live Demo | 2026

HTML5, CSS3, JavaScript, Browser APIs

- Built a browser-based operating system with five core applications, draggable windows, z-index management, dock controls, a lock screen, and fullscreen support.
- Developed a multi-tab browser, virtual file system, code editor, calculator, and system settings using Vanilla JavaScript and dynamic UI state management.
- Integrated localStorage persistence, keyboard shortcuts, a real-time clock, geolocation, and weather data from the Open-Meteo API.

Experience

NavGurukul – Education Technology **2025 – Present**
English Facilitator & Peer Mentor *Dharamshala, Himachal Pradesh*

- Facilitated 50+ learning sessions for 20+ learners, supporting English communication, structured practice, and continuous feedback.
- Conducted 30+ one-on-one mentoring sessions and 15+ peer workshops, helping learners troubleshoot problems and develop independent problem-solving skills.

Education

Higher Secondary Certificate (Class XII) **2026**
Maharashtra State Board *Maharashtra, India*

Full-Stack Web Development **2025 – Present**
NavGurukul *Dharamshala, Himachal Pradesh*

Certifications & Achievements

- Responsive Web Design – freeCodeCamp
- JavaScript Algorithms and Data Structures – freeCodeCamp
- Built 10+ projects and solved 30+ DSA challenges

Languages

Marathi (Native) | Hindi (Fluent) | English (Professional Working Proficiency)
